**HMRC recognised Software**

# SiriusPayroll365 Fact Sheet

SiriusPayroll365 integrates seamlessly with Microsoft Dynamics 365 **Business Central** and is **HMRC recognised.**
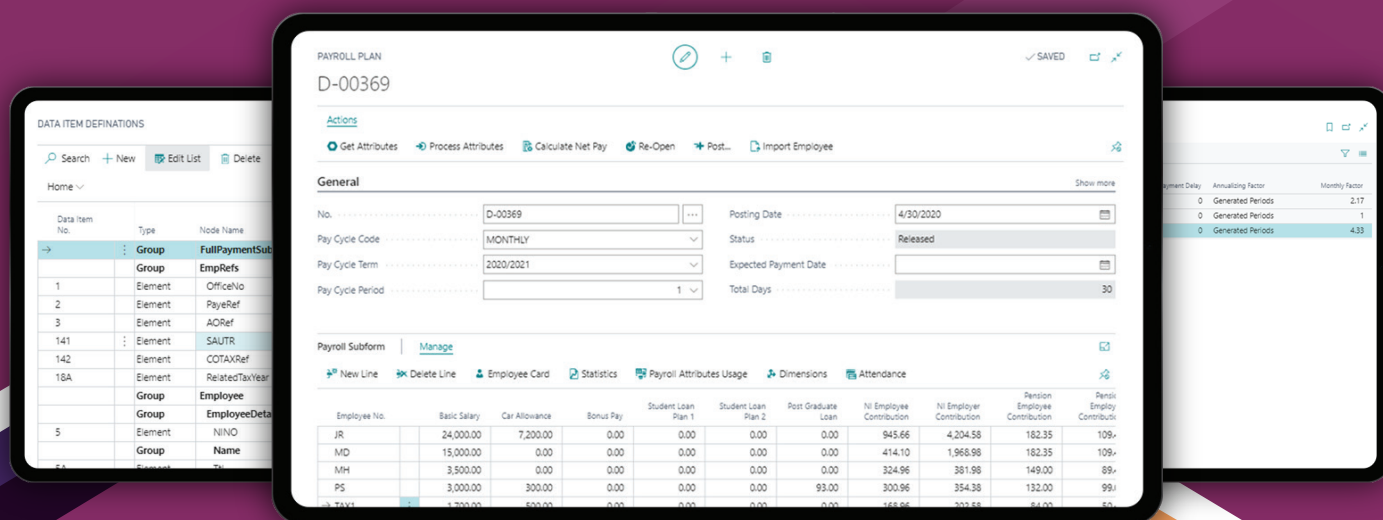

Microsoft Dynamics 365
Business Central

Microsoft
Dynamics NAV

SiriusPayroll365 lets you collect, manage, store, and share your employee data securely. It captures data from Business Central and enables complete payroll processing. You can see the information on employee salary, pensions, national insurance, statutory payments, and deductions. It also lets you print cheques, which you can send directly to your employees.

# Why you need SiriusPayroll365

### 1.

### HMRC Compliant

SiriusPayroll365 links to HMRC to automate submissions and validate employee information, which ensures you submit accurate data to HMRC and meet the RTI (Real Time Information) requirements.

### 2.

### Simplifies Processing

SiriusPayroll365 automates manual paperwork and reduces human errors. It enables you to process payments regarding pensions, overtime, sickness, contracted hours, insurance, maternity & paternity and more.

### 3.

### All data together

Manage your finances with Dynamics 365 Business Central integration as all your payroll data will be hosted in your ERP.
