Tired of inaccurate time entries and costly manual tracking?

Sirius Timesheet 365 transforms time tracking by automating the entire process, ensuring accuracy and efficiency from day one. Whether it's **managing overtime**, **logging project hours**, or **tracking clock–ins and outs**, our intuitive app seamlessly integrates with your Dynamics 365 Business Central or Dynamics 365 Project Operations systems.

With mobile access, real–time syncing, and customisable features, Sirius Timesheet 365 simplifies timesheet management, allowing your team to stay focused on what truly matters—while saving you time and money.

Our Timesheet Apps

Designed to be flexible and tailored precisely to your business needs.

Timesheet for Overtime Entries

Track overtime with precise data on extra hours worked, ensuring compliance.

- Standard overtime
- FLSA overtime compliance
- Customisable overtime rates
- Real–Time overtime insights

Timesheet for Project Operations

Manage project–based work with precision, tracking hours against specific tasks.

- Billable vs. non–billable hours tracking
- Project task selection
- Quick task adjustments
- Automated time entries sync
- Detailed time reports

Timesheet for Clock–In & Out

Simplify attendance tracking with user–friendly clock–in and clock–out functionalities.

- One-tap clock–in and clock–out
- Daily summary view
- Offline mode
- Automatic break tracking
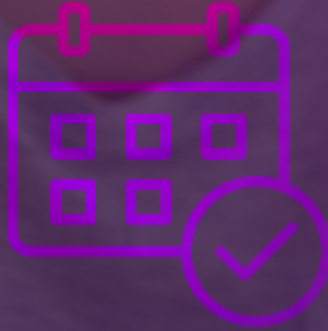

Powerful Features

- **Effortless Overtime Tracking:** Log overtime seamlessly, ensuring accurate payroll and compliance with company policies and FLSA standards.

- **Accurate Project Time Entries:** Track billable and non-billable hours for clear project cost visibility and precise client billing.

- **Simplified Clock-In/Out:** One-tap clock-in and out with instant sync to ERP/CRM, reducing errors and manual work.

- **Mobile Time Entry & Adjustments:** Log and adjust hours from anywhere, with automatic syncing when reconnected.

- **Field-Friendly Design:** Track time on the go, perfect for field teams without needing a computer.

- **Dynamics 365 Integration:** Automatically sync time entries with Dynamics 365 Business Central and Dynamics 365 Project Operations, cutting manual data entry.

Business Benefits

- **Save on ERP Licensing Costs:** Integrate directly with your ERP or CRM systems, allowing employees to log time without needing a full ERP licence.

- **Precision Time Tracking, Anytime, Anywhere:** No need to wait until you're back in the office—log hours from anywhere, even offline, making time-tracking effortless.

- **Streamlined Billing and Payroll:** Easily differentiate between billable and non-billable hours, track overtime precisely, and ensure your client billing and employee payroll are always accurate.

- **Customisable Overtime Compliance:** Customise overtime rules to match your company's needs, ensuring your team is compensated accurately while meeting legal requirements.

- **Real-Time Syncing:** Automatically sync time entries with your ERP or CRM, ensuring up-to-date data across all systems, reducing manual data entry errors.

- **Seamless Project Tracking:** Track time against specific project tasks, enabling clear visibility of billable hours and project costs for accurate client billing and budget management.

Transform your time tracking by streamlining overtime, projects, and clock-in/out entries.
