Give Your Employees 24/7 **Access to Payroll Documents** —Securely and Effortlessly

Sirius Connect 365 is a **secure payroll document portal** fully integrated with Sirius Payroll 365 and Microsoft Dynamics 365 Business Central. Designed to simplify HR operations and enhance employee experience, it enables real-time access to **payslips, payroll summaries, P60s, P11D, and employment details—all in one place.**

Key Features

- **Secure Email-Based Login**

Employees access documents via email credentials—no need for third-party logins.

- **Real-Time Integration with Business Central**

Instantly fetch live payroll data from Business Central with no syncing or data storage required.

- **Comprehensive Document Access**

View current and historical payslips, P60s, and end-of-employment records anytime.

- **Personalised Employee Dashboard**

Displays key information like job title, NI details, pension status, bank info, and more.

- **Cloud-Based Payroll Access with Flexible Hosting**

Choose hassle-free Dogma hosting or deploy Sirius Connect 365 in your own Azure tenant for full control.

Business Benefits

- **Free 3-Month Trial – Then Just £0.50 per Employee/Month**

Start free for 3 months, then pay just £0.50 per employee per month—simple, transparent pricing with no hidden fees.

- **Quick Setup**

Rapid deployment and simple configuration.

- **Employee Self-Service**

Empower staff with secure, self-serve payroll access—reducing support requests.

- **Employee Payroll Access**

Give employees secure, anytime access to their payroll documents for less admin requests and more transparency.

- **Enhances Employee Experience**

Gives staff quick, secure access to vital payroll records—boosting satisfaction and trust.

- **Boosts Operational Efficiency**

Real-time updates reduce lag, errors, and dependency on internal requests or manual updates.

FAQs

1. Where will my data be hosted?

You have two flexible hosting options for Sirius Connect 365:

- **Dogma-Hosted Solution**

We can host the Sirius Connect 365 frontend for you on our secure, managed infrastructure — eliminating the need for internal deployment or ongoing maintenance on your end.

- **Client-Hosted on Azure***

Alternatively, you can deploy and host Sirius Connect 365 within your own Microsoft Azure tenant. This option gives you full control over your environment, aligning with internal policies or specific compliance requirements.

**There is an extra cost associated with this option.*

2. Will the payslip portal impact any of the rest of the set up?

No, it won't.

3. How do employees log in to Sirius Connect 365?

Employees use their registered email address to log in securely—no need for third-party credentials or complex password systems.

4. Is Sirius Connect 365 secure?

Yes, Sirius Connect 365 uses secure email-based authentication and encrypted data storage. It complies with GDPR standards and ensures that sensitive payroll data remains protected.

5. How often is payroll data updated in the portal?

The portal fetches data directly from your Business Central environment in real-time via Sirius Payroll 365. This ensures employees always see the most up-to-date information, without any delays or stored data.

FAQs

6. How long does it take to set up Sirius Connect 365?

Setup is quick and straightforward. Most businesses can go live within a few hours after configuration and user import.

7. What are the benefits of using Sirius Connect 365 for employees?

Employees gain 24/7 secure access to payroll records, reducing their dependency on HR and increasing trust, transparency, and satisfaction.

8. Does Sirius Connect 365 reduce HR workload?

Yes. With employee self-service access to payroll data, HR teams handle fewer requests and can focus on higher-value tasks—boosting overall efficiency.

9. Do employees need any training to use Sirius Connect 365?

No formal training is needed. The portal is designed with a user-friendly interface and intuitive navigation, making it easy for employees to access their documents immediately.

10. What data privacy and compliance standards does Sirius Connect 365 follow?

Sirius Connect 365 complies with GDPR and other applicable data privacy regulations. All employee data is securely encrypted during storage and transmission.

11. How do I get started with the 3-month free trial?

Simply reach out to the Dogma team to activate your free trial. We'll help you set up the portal, import employees, and begin sharing payroll documents securely.
